

OUR CLAIMS.

WE claim that there is no better Boys' and Children's Clothing made than is to be found in our store. WE claim that our styles and patterns are the very newest to be seen in this country. WE claim that our clothing is made and trimmed equal to the best merchant-tailor garments. WE claim to fit Young Men, Boys and Children of all sizes and shapes, long, regular or stout. WE claim to be the original Boys' and Children's Clothiers in America, and the only ones in Washington. WE claim to have every essential thing in the line of Clothing and Furnishing Goods for Youths, Boys and Children. WE claim to have a fixed price and not to deviate from it and guarantee it to be the lowest for the quality. WE claim that the truth shall be told about our goods, and if you are dissatisfied with your purchase return it and get your money. If you recognize these as correct business principles, give us the benefit of your patronage.

Transact a Large Amount of Business at Saratoga To-Day.

SARATOGA, N. Y., May 16.—At the meeting of the Presbyterian Assembly this morning nineteen standing committees were announced by the moderator.

The report of the special committee to inquire into the best means of preventing the liquor traffic in the Congo region was read and adopted.

The clerk reported on the general question of revision 132 Presbyteries had answered in the affirmative, 66 in the negative, 7 declined to answer and 8 had not yet reported. A committee of five was appointed to canvass the answers to the overtures, as follows:

Dr. Francis L. Patton of Princeton College, Dr. H. M. McCracken of New York, J. D. Thornton of San Francisco, Maurice D. Edwards of St. Paul and R. P. Shanklin of Indiana.

The special committee on the board of publication reported against the purchase of a complete publishing outfit.

A CELEBRATED CASE ENDED.

Glass Manufacturers Acquitted of Importing Contract Laborers.

PITTSBURG, PA., May 16.—A United States jury yesterday acquitted Chambers & McKee, the millionaire glass manufacturers, James Campbell, the high-tariff president of the Window-Glass Workers' Association, and William Slicker, president of the International Federation of Glass Workers, of the charge of importing labor from Europe under contract.

A verdict was rendered for the defendant in the proceedings instituted to recover \$1,000 penalty for the importation of one Charles Ferd. This will relieve the Administration's United States District Attorney, Walter Lyon, of the trouble of taking similar action in the case of forty-five other Englishmen who came to the United States under like circumstances. The Government was six months in preparing the case.

The Trouble With Baseball.

From the Philadelphia Press.

President Spalding of the Chicago National League Club believes that popular interest in baseball is waning, and it may be right. There is reason to suspect, however, that the chief trouble is a surplus of Associations and a deficit of good playing.

Tender Golf Indeed.

The Rev. Dr. Primrose—I'm glad to see you are so kindhearted, and I love you for crying when your father cut the tail off your dog. What made him do it?

A Sign That the War Is Over.

From the Lancaster Morning News.

The spectacle of Sir Julian Pauncefote planting a tree at George Washington's tomb, by order of the Prince of Wales, ought to convince a good many folks that the war is really over.

Butterworth Smashed the Crocker.

From the Saratoga Truth.

Representative Butterworth came pretty near playing "the bull in the china shop" with the McKinley Tariff bill in the House at Washington yesterday.

To Tom Read Him Out.

From the Harrisburg Patriot.

It is now in order for the Czar of the House to read Butterworth out of the party—for to Tom Read him out, so to speak.

WORK OF BOTH HOUSES.

THE DISTRICT'S INTERESTS CONSIDERED IN COMMITTEE.

Several Measures of Local Importance to Be Reported—Tariff Talk in the House—Silver in the Senate—Other Congressional Proceedings.

In the Senate to-day Mr. Dawes presented remonstrances of jobbers and retailers of foreign goods in Springfield, Mass., against the provision of the McKinley bill relating to goods made wholly or in part of wool, and the increase of duties of silk manufactures.

The House amendment to the Anti-Trust bill was reported back with an amendment thereto striking out certain words and inserting the words, "So that the rates of such transportation may not be raised above what is just and reasonable."

The amendment was agreed to and a conference ordered.

The bill to permit the manufacture and printing of securities of foreign governments on paper used for U. S. securities was reported adversely and was indefinitely postponed.

Senate joint resolution for an immediate survey and estimate of improvement of the St. John's River, Florida, was reported.

The Silver bill was then taken up, and Mr. Sherman offered a substitute for the amendment heretofore offered on him (as to covering into the Treasury the funds now held for the redemption of national bank notes). Mr. Sherman stated that the substitute was to the same effect, but in better form, having been prepared in the Treasury Department. The amendment was read.

In the House.

Petitions were presented in the House to-day from the employes of several knitting mills in Philadelphia urging the passage of the McKinley bill. Also one from Collins Bros. & Co. of St. Louis against a duty on sugar of milk. Referred.

Senate bill was passed authorizing the registration of census mail matter.

The House then went into Committee on the present rate of wages of glass chimneys in the clause relative to this blown glass, at a duty of 10 cents a dozen and 40 per cent. ad valorem.

Mr. Bland introduced the proposed increase was intended to enable a few gentlemen, at the expense of the people, to make fortunes. He denounced the bill as a measure of petty thievery and Missouri.

Mr. McKinley of Ohio offered an amendment specifically including glass chimneys in the clause relative to this blown glass, at a duty of 10 cents a dozen and 40 per cent. ad valorem.

Mr. Henderson inquired how many lamp chimneys were imported.

Mr. McKinley replied that he had no exact data.

Mr. Henderson then wanted to know how, if Mr. McKinley had no exact data, he knew that the duty should be increased. [Applause and laughter on the Democratic side.]

Mr. McKinley said the committee knew that it was impossible for our people to manufacture these chimneys under the present rate of duty and continuing at the present rate of wages.

Mr. Henderson said he would decline to vote for the increase of any duty whatever when he had not the information to justify the vote.

Mr. McKinley asked that the committee be discharged on the bill. The committee had done its best with the information at its command. Every member of the majority of the committee had agreed that the proposed duty on glass chimneys was excessive.

An amendment offered by Mr. Henderson of Iowa, retaining the present duty on glass chimneys, was defeated, 103 to 107.

District in Congress.

The House District Committee to-day heard Mr. Edwards and General Huntington in favor of the bill to refer the claim of James V. Walsh and others to the Court of Claims. These cases have been before the court since the District Commissioners say the presumption must be that the findings of the court are correct and conclusive. The bill was left with the Judiciary Sub-Committee.

Committee on Commerce, president of the board, forwarded to the Commissioner to-day a communication recommending that H. R. 9704, to incorporate the Washington and Benning Street Railway Company, be amended by adding after the word "District" in line 35 the words: "And the rails used by said company and the location of said track shall be subject to the approval of the Commissioners of the District of Columbia."

A petition signed by fifty-two citizens of Washington, praying for a change in the location of the tracks and buildings of the Baltimore and Ohio Railroad Company and for the passage of Senate bill 3277, which provides for the location of the company's depot north of H Street, was presented to the Senate by Mr. Hale.

Mr. Teller introduced a bill in the Senate to pay \$10,000 to William F. Way for services rendered to United States, as audited and recommended by the First Comptroller of the Treasury January 22, 1888.

Mr. Harris introduced a bill providing for the assessment and collection of water rents and water-main taxes. It provides that after June 30, 1890, all rents for water and all taxes for water-mains shall be collected by the assessment and collection provided in accordance with the existing law by the Assessor of the District.

The Senate District Committee met to-day. At the outset Messrs. Harris (who presided), Farwell, Vance, Faulkner and Barbour were present. Mr. Ingalls came in and took the chair. Mr. McMillan also came in.

The committee instructed Mr. Ingalls to report favorably, with amendment, and Mr. Barbour to report adversely to children in the District; Mr. Faulkner to report favorably, with amendment, Senate bill 3309, for the preservation of the public beach and the protection of property within the District.

From the St. Louis Globe-Democrat.

Senator Quay is deservedly praised for his habit of reticence, but there are times in the lives of all men when they need to say something, and he is just now facing a situation of that sort.

His Record to Date.

From the Louisville Courier-Journal.

Dr. Harrison's Presidential record: Twenty ducks slain and one Southern public building appropriation vetoed.

NINETEEN BODIES RECOVERED.

Six More are Missing and are Thought to be Dead.

WILKESBARRIE, PA., May 16.—Exploring parties have found nineteen dead in the mine. Six more are missing, and it is probable they are also dead.

It is now stated that all of the entombed are dead. At 7 o'clock this morning the rescuing party discovered one of the Hungarian brothers, named Russ, in an abandoned working. He was still alive, and he thought that the other men were all safe in one of the breasts. This gave rise to the rumor that all the men were safe. Russ died on being brought to the surface. All the men, with the exception of those rescued last evening, it is now said, were killed by the explosion, which occurred two hours after the cave-in took place. The bodies of the victims are being taken out. They are horribly mangled, in some instances heads having been blown entirely off.

When the nineteen dead and charred bodies were being brought out the scene at the mine was heartrending in the extreme. Men, women and children, shrieking and groaning, fell upon their knees, lifted their hands and eyes toward Heaven, and prayed for the dead.

Allen, the fire boss, who was rescued from the mine alive last night died to-day.

A BIG DEAL IN PROSPECT.

Brotherhood Backers Secure a Large Interest in the St. Louis Club.

St. Louis, Mo., May 16.—It was reported here last night that a big exchange of stock between Will Johnson, the local street railway magnate, and Chris Von Der Ahe, president of the St. Louis Baseball Club, had been made. Mr. Von Der Ahe becoming interested in Mr. Johnson's railway properties and Mr. Johnson securing a large holding in the St. Louis baseball franchise.

The general interpretation put upon the new situation by the few who know of it is that Will Johnson, a strong Brotherhood advocate, has about succeeded in arranging a peace with the Brotherhood and Von Der Ahe and for the early transfer of a club to this city, probably from Cleveland, Buffalo or Pittsburgh, and its consolidation with the present St. Louis club.

One of the strongest organizations in the country.

The general interpretation put upon the new situation by the few who know of it is that Will Johnson, a strong Brotherhood advocate, has about succeeded in arranging a peace with the Brotherhood and Von Der Ahe and for the early transfer of a club to this city, probably from Cleveland, Buffalo or Pittsburgh, and its consolidation with the present St. Louis club.

One of the strongest organizations in the country.

IS THIS TRUE?

Homeopaths Declare That Vaccination Does Not Prevent Smallpox.

INDIANAPOLIS, IND., May 16.—The subject of vaccination was discussed last night by the homeopaths at their meeting yesterday, the subject being introduced by Dr. Baker of Terre Haute. Dr. Baker maintained there was as many evils as good results from vaccination, and he did not know what it would be wise to abandon the practice altogether. Many of the physicians concurred in Dr. Baker's opinion.

Dr. Sawyer of Kokomo said he had seen cases that unmistakably came from vaccination. The doctor said he had made a careful study of the subject and had discovered that the death rate from smallpox was less when vaccination was resorted to than where it was not. The death rate from smallpox, he said, was larger now than ever before, notwithstanding the general resort to vaccination.

CONTROLLED BY FOREIGNERS.

An English Syndicate Secures a Valuable Mining Plant.

CLEVELAND, OHIO, May 16.—The entire property of the Jackson Iron Mining Company will be owned in England within a few days. Negotiations have been going on for several months and a company has finally formed abroad to take up the 132,000 shares of stock at \$125 a share, or \$16,500,000 for the mine. The Jackson property is one of the best on Lake Superior. It has been controlled for two years by William Chisholm and J. H. Wade, Jr., of Cleveland, and Samuel Ingham, of Neguon, Mich. They bought the stock at the price at which it now sells, \$125 a share, but it has paid \$70 a share in dividends within the two years in which they have held it.

RETURNED HOME.

A Missing Editor Who Tells a Very Strange Story.

FARMINGTON, ILL., May 16.—A. L. Baker, the managing editor of the Maroa, Ill., Times, who has been missing since May 7, returned to this city on a late train yesterday and is now at the home of his parents, completely worn out and suffering from the effects of power-hungry drugs. He says that while in Decatur he was overpowered and kept him under the influence of drugs until last Sunday when they deserted him at Dubuque, Iowa. He discovered a note left by one of the men saying that they were ready to take him to the man they wanted, and advising him to go home. They robbed him of \$30 and also used his mileage books on the railroads.

WILL HAVE FRONT SEATS.

Boston Aldermen Can See the Ballet at the Opera House.

BOSTON, May 16.—The aldermen, in a conference with theatrical managers, yesterday reached an amicable adjustment of their troubles over dead-head seats on passes for the aldermen, and at the suggestion of the theatre men the aldermen agreed to fix the price of circus licenses at \$1,000.

Disease Leads to Suicide.

CHICAGO, May 16.—Albert Harsfeldt, president of the Chicago Quilling Company, committed suicide yesterday at Brown's Hotel, corner State and Van Buren streets, by shooting himself in the head. Harsfeldt was afflicted with a tumor on the neck, and several physicians whom he consulted told him that he could not get well. It is supposed that he preyed upon his children in the District; Mr. Faulkner to report favorably, with amendment, Senate bill 3309, for the preservation of the public beach and the protection of property within the District.

Ought to Say Something.

From the St. Louis Globe-Democrat.

Senator Quay is deservedly praised for his habit of reticence, but there are times in the lives of all men when they need to say something, and he is just now facing a situation of that sort.

His Record to Date.

From the Louisville Courier-Journal.

Dr. Harrison's Presidential record: Twenty ducks slain and one Southern public building appropriation vetoed.

FARMERS IN POLITICS.

THE NATIONAL ALLIANCE PROPOSES TO TAKE A HAND

In the Great Government Game—Their Efforts to Control State Governments and Congress—What They Have Done and Propose to Do in the West and South.

Congressmen from several of the Southern and Western States are very much exercised over the political situation. The tariff has no terrors for them, for they go with their party and ask no questions. Silver presents no other difficulty to them than paucity of possession. Other subjects of legislation are largely influenced by local interests. Yet are many of our statesmen worried.

The cause of their anxiety is found in the organization known as the Farmers' National Alliance. It has a very large membership in the cotton and wheat-growing States. Its object is to force an adjustment of the tariff by legislation. It is, therefore, to that extent a political, though it is not a party, organization. So far, it professes an intention of acting within the lines of the two regular parties. Of course, if they fail to gain their purpose in that way they reserve to themselves the right to enter the field as a separate political party.

Their project is their sub-treasury scheme. They propose that the Government shall erect fire-proof warehouses wherein may be deposited certain staple products of the farm, such as cotton, wheat, oats and other non-perishable articles. When so deposited the Government is to advance a certain percentage of their market value, say two per cent. Bills to carry this plan into effect are now pending before committees of the two houses of Congress.

Acting within the lines of the two regular parties, they are to control the nominations to office already in Kansas the Republican Alliance men encompassed the defeat for renomination of Mr. Turner. In Arkansas in 1888 they allied forces with the Republicans in two districts, and as a result of that alliance Mr. Featherston now holds a seat in the House from the First District of that State.

In the Southern States they act with the Democratic party. They have sent letters asking questions which aspiring politicians find puzzling. Mr. Oates of Alabama answered them promptly and frankly and regrettably giving his reasons for his opposition. By what may be styled a political paradox Mr. Oates is certain of renomination and re-election. But other districts are not so safe.

The man who will have a candidate for nomination in most of them. They will also endeavor to nominate a candidate for Governor when the Democratic State Convention meets in May. In the district of Michigan—probably in the National Democrat, in Mississippi, Missouri, North Carolina, South Carolina and Georgia they are moving. In the North-western States, Michigan, Minnesota, Nebraska, Iowa and Kansas the Alliance men are up and doing. In these States they will act within the lines of the Republican party.

In no State, they say, are the Alliance forces so well organized as in Georgia. Not only are they preparing to capture the State government, but they have candidates already in the field for nomination to Congress in seven out of the ten districts of the State. So far no one has come out against either Mr. Lester, Mr. Turner or Mr. Crisp. They may be opposed, but so far no opposition has materialized.

In the Fourth district Mr. Grimes has for an opponent the Hon. H. R. Harris, an ex-member of Congress and the Third Assistant Postmaster-General under the first Administration.

In the Fifth district Mr. Stewart will be opposed by W. H. Peck, president of the Georgia State Alliance.

In the Sixth Mr. Blount will have to contend with Mr. R. N. Nisbet, a fish planter and prominent Alliance man.

In the Seventh Mr. Clements will measure swords or cotton hocks with Mr. Felix Copart, who is a high officer of the Alliance.

In the Eighth Dr. Carlton has declined a renomination. Mr. J. N. Smith, the biggest planter in Georgia—he has 1,000 men in his employment—and an important factor in a candidate's affairs, stands a very fair chance of writing Mr. C. after his name.

In the Ninth Mr. Candler has declined to run again and may be succeeded by Mr. A. L. White, who thinks the Alliance a winning card.

In the Tenth Mr. Barnes, who is as big as the late Senator Dixon of Alabama, will be made to bustle in a manner very unbecoming for a corpulent man in hot weather. The part of the second party is Mr. Thomas Watson, a lawyer, but an Alliance man.

Truly, the prospects are very good for a great deal of politics this fall.

FINANCIAL AND COMMERCIAL.

NEW YORK, May 6.—Money loaned at 6 1/2 per cent. Exchange weak; posted rate, 484 1/2@484; actual rates, 483 1/2 for 60 days, and 483 1/2 for demand.

Governments steady; currency 6 1/2, 10 1/2, 4 1/2, coupons, 12 1/2, 4 1/2, do, 10 1/2 bid.

Three hundred and fourteen thousand shares changed hands on the Stock Exchange in the two hours to noon yesterday. Prices were strong and advanced with very little interruption throughout the morning, the greatest activity was in Aitchison Chicago Gas, Union Pacific, Oregon Transportation, New England, Reading, Consolidated Coal and Pullman Palace Car. At noon the advance ranged from 1/4 to 3/8 per cent., but at this writing, the market is dull, at a fractional reaction.

Rescued Entombed Miners.

WILKESBARRIE, PA., May 16.—Fourteen men were this morning taken out of the caved-in Hartford mine alive. There is great rejoicing among the friends and relatives of the rescued men, who tell thrilling stories of the efforts they made to keep themselves alive.

Killed With a Brick.

NEW YORK, May 16.—A Parkersburg (W. Va.) special says that Frank Tolliver, the noted brother of the Kentucky Tollivers, was hit with a brick and killed by Frank Lefter Wednesday night during a riot. Lefter has been arrested at Athens, Ohio.

A Village Under Water.

COLUMBUS, TEXAS, May 16.—This village is now almost entirely overflowed by the Colorado river. The water covers most of the lower floors, and many one-story cottages have been abandoned.

CARLISLE IN THE VAN.

Within Twelve Votes of Securing the Senatorial Nomination.

NEW YORK, May 16.—The Herald's Frankfort, Ky., special says: Carlisle would have been nominated last night if the friends could have taken another ballot. All the opposing candidates combined to force an adjournment at the close of the third ballot, however, and they were finally successful. The ex-Speaker's strength was crowding with every additional poll, and there is little doubt that this evening will find him selected as the successor of Mr. Beck.

The Times' special says: One more ballot and Mr. John G. Carlisle would have been made United States Senator to succeed Beck. This is the verdict to-night after the adjournment of the caucus. The situation for the lower candidates seemed hopeless. Their backers recognized this and a last desperate move was made. Filibustering began, and ended in an adjournment. All day long the forces of the contending candidates were at work, realizing that, in all probability, to-night would settle the struggle. Judge Lindsay's sentence sent out word along the line that his forces would push the fighting at night, and estimates of his strength ranged from the five to forty votes, but he fell far short of either.

At the close of the night, Carlisle's friends wanted also, both sides claimed certain election, but everybody left out allowances for Knott or McCray, and the result was that neither would increase his strength from the fourth ballot last night. Judge Hargis of Louisville and General John S. Williams were working hard for Carlisle. He was working hard for Judge Lindsay and the slight increase in his vote is due to their influence. It was understood pretty well that the Lindsay men were keeping Colonel Laban T. Moore on the track in fact to carry out the plan of the evening, and converted freely with different ones, but no one has yet been found who witnessed the row.

Mr. Beckley was taken to the Second Precinct Dr. Naylor was called in, but he pronounced the injuries not of a serious nature. There was no outward evidence of a bruise or cut upon the scalp, but the doctor gave as his opinion that the man had been struck about with a fist or sand-bag.

At the hospital a thorough examination of the man was made upon his arrival there last night, but it is thought that the man had been struck about with a fist or sand-bag.

The doctors at the hospital are of the impression that death was from concussion, or a rupture of the blood vessels at the base of the brain. Governor Patterson was notified, but he has not yet had the body removed from the hospital to the morgue. An inquest will be held to-morrow and a thorough investigation made.

The officers in the Second Precinct are pushing forth their utmost efforts to find the murderer.

Late this afternoon it was ascertained that during the festival at the Cadet Hall, Maria Davis, one of the colored girls who was in attendance at the May festival, created a little disturbance and she was taken out of the building by Reddick.

On the sidewalk William, better known as "Slick" Taylor, a colored man, interfered with the officer and attempted to take the girl away. It was during this scuffle that the assault was committed. Both Taylor and the Davis girl were taken to the hospital, where they will be arrested to-night. Reddick has been a special officer for three years, and has no other record.

WHERE IS MINNIE?

She Has Disappeared and is Thought to Have Been Kidnapped.

BELLEVILLE, ILL., May 16.—Minnie Deichmann, a pretty miss, aged 16, has disappeared, and is thought to have been kidnapped. She is an adopted daughter of Gottlieb Deichmann, and left home for school last evening as usual. She did not return at the dinner hour, but the family did not become anxious about her until they ascertained that she had not been to school. A search was made over the neighborhood, but through the city was made, but without avail. Yesterday a letter was received by Mrs. Deichmann from St. Louis, in which it was stated that they never saw her since again, but that she was in safe hands.

EX-GOVERNOR ROBINSON'S OPINION

He Believes That Selling Liquor in Original Packages is Legal.

SPRINGFIELD, MASS., May 16.—Ex-Governor Robinson has been employed by a syndicate of Holyoke unlicensed liquor dealers to look up the constitutionality of the "original package" law and has delivered an opinion to the effect that, under the law, it is legal to sell liquor in the original packages is legal, and that convictions by the lower courts under the law will be reversed if taken to the Supreme Court. Holyoke, which has made a test case, and there is every prospect of a general commencement then of business under the "original package" decision.

ARSON TO CLINCH A TITLE.

Feudal Result of a Quarrel Over a Farm House.

SYRACUSE, N. Y., May 16.—John and Katherine O'Connell of Otesco are under arrest here on an indictment for arson in the first degree. John Bolter, a German with a wife and seven children, makes the charge against them through Sheriff Johnson of this county. The charge grows out of a violent dispute between Bolter and O'Connell, in which they had priority of right to occupy the farm and home of the late Rebecca Birge, who left no heirs, but whose estate was occupied by O'Connell when she died. There have been several riotous outbreaks in the case.

DISCOVERED IN OREGON.

A Missing Chicagoan Who Went There to Recover Health.

PORTLAND, ORE., May 16.—Charles Randolph, ex-secretary of the Chicago Board of Trade, in an interview with the United Press reporter to-day said that he left Chicago on account of ill-health. "I was sick and worn out," he said, "and came here to recuperate. The circumstances of my leaving, however, are a blank, and I doubt if I shall ever be able to explain them. It is living here quietly."

Not as Fortunate as Kommer.

SAN ANTONIO, TEX., May 16.—Judge Massey of the United States District Court yesterday handed down a decision denying the petition for a writ of habeas corpus made by Dick Dwyer, under sentence of death. Judge Massey holds that the penalty is perfectly sound and constitutional.

Destroyed by Fire.

FORT SCOTT, KAN., May 16.—Early yesterday morning fire destroyed the principal business houses in the town of Bronson, sixteen miles west of here. The loss is estimated at \$15,000. Father Shoffer, an aged gentleman, fell dead while conveying goods out of a burning building.

General Spinner Dying.

NEW YORK, May 16.—A special to the Tribune from Amsterdam, N. Y., says information has been received there that the condition of ex-United States Treasurer General Francis E. Spinner, who is at Jacksonville, Fla., suffering from cancer on his face, is growing rapidly worse.

A MYSTERIOUS MURDER

RICHARD REDDICK, A SPECIAL POLICEMAN, KILLED IN A ROW.

Assaulted at Midnight By Unknown Parties and Dead at Noon To-Day. He Never Recovered Consciousness—Two Men Arrested on Suspicion.

Last night about 12 o'clock an assault was committed on Richard Reddick, colored, a special policeman, in front of the Washington Cadets' Armory, on O street, between Seventh and Eighth streets. Immediate medical attention was given Reddick, but he never recovered consciousness from the time he was found in the street until he died this morning.

It still remains a mystery as to who Reddick's assailants were, but it is thought that they will be apprehended during the day.

Reddick was found lying in an unconscious condition in the street, near the Cadet Armory. He was taken to the station and from there in the ambulance to the Freedmen's Hospital, where he died shortly before noon.

Two men by the name of Charles Baker and William Lawson, both colored, have been arrested and are locked up at the Second Precinct station. It is hardly thought that they are the right men, but they are retained on suspicion that they may be able to give some information in regard to the affair.

The colored people had a May festival at the Cadet Armory last night and Reddick was there in the performance of his official duty. He was to restore him to consciousness were he availing. After death this morning a slight cut was found on the back of the head, but there was no fracture of the skull.

The doctors at the hospital are of the impression that death was from concussion, or a rupture of the blood vessels at the base of the brain. Governor Patterson was notified, but he has not yet had the body removed from the hospital to the morgue. An inquest will be held to-morrow and a thorough investigation made.

The officers in the Second Precinct are pushing forth their utmost efforts to find the murderer.
